Software Development | Mobile Applications | Backend Integration | AI/ML Projects

CAREER OBJECTIVE

Creative Software & Android Developer with experience building native mobile applications and integrating complex backend services. Tested apps extensively and resolved identified bugs and errors to improve application stability. Bright critical thinker with adaptability and accuracy strengths.

EDUCATION

St. John College of Engineering & Management, Palghar, Maharashtra

B.Tech in Computer Engineering 2024 – 2027

- CGPA: 8.56/10

St. John College of Engineering & Management, Palghar, Maharashtra

Diploma in Computer Engineering 2024

- CGPA: 83.14%

CERTIFICATIONS

- Google Android Developer Pathway - Digital Badges — 2026
- Alpha Innovation - Cybersecurity — 2026
- CRM Admin Studio: Essentials - Enjay IT Solutions Ltd. — 2026
- Applied Git Proficiency Certificate - KraftPixel — 2026
- Kantascrypt Angular API Development - Kantascrypt — 2025
- Metaverse Training - IOFT — 2025
- Machine Learning Foundations - AWS Training — 2025
- Java Programming Fundamentals - Infosys Springboard — 2024
- Database and SQL - Infosys Springboard — 2024
- AWS Academy Graduate | Cloud Foundations - AWS Training — 2024
- SQL & Dot Net Certification - Kantascrypt — 2024

TECHNICAL SKILLS

Programming Languages: Kotlin | Java | Python | C++ | C | HTML | CSS

AI/ML Frameworks: TensorFlow | PyTorch | OpenAI API | Hugging Face Transformers | NLP

Databases: RoomDB | SQLite | PostgreSQL | MySQL | Firebase

Cloud & DevOps: Git | GitHub Actions | Docker | CI/CD Pipeline

Mobile Development: Android Development | Android Studio | Jetpack Compose | Material Design 3 | MVVM

EMPLOYABILITY SKILLS

- Problem-Solving & Critical Thinking
- Adaptability & Quick Learning
- Attention to Detail
- Collaboration & Professionalism

INTERNSHIPS

Android App Development Intern | Kotlin | Android Studio | Material Design | Firebase (3 months)
2026

Enjay IT Solutions Ltd

- Developed user-friendly Android application interfaces to improve functionality and user experience.
- Integrated Firebase services to support data management and application operations.
- Tested application features, identified bugs, and improved app stability and reliability.

Cybersecurity Intern | Cybersecurity | Linux | Computer Networking | Shell (2 months)2026

ALPHA INNOVATION

- Monitored network security alerts and incidents to identify potential threats.
- Analyzed security events and flagged suspicious activities for further investigation.
- Evaluated cybersecurity tools and technologies to stay aligned with security best practices.

PERSONAL PROJECTS

Student Room Sharing App | *Android, Kotlin, Material 3, Firebase Admin, Java* 2024

- A native Android application to facilitate student room sharing, featuring a modern, user-centric interface utilizing Material 3 design principles.
- Engineered real-time chat and exploration features, integrating a custom Firebase Admin server for robust push notification delivery.
- Refactored error handling and data validation using modern UI components (Snackbar) to ensure a seamless and responsive user experience.

Automated Phishing URL Detection | *Backend, Docker, Whitelisting Algorithms, Python, JavaScript* 2026

- Built an automated system for real-time phishing URL detection, implementing fast-whitelisting mechanisms designed for production readiness.
- Containerized the application environment using Docker (docker-compose), ensuring consistent deployments and scalable execution across different systems.

AudioPlayer Android | *Kotlin, Android Jetpack Media3* 2026

- A modern, lightweight Android music player utilizing Kotlin and the latest Jetpack Media3 APIs.
- Implemented robust background media session management to handle seamless audio playback, pausing, and system interruptions.

Travel Expense Splitter | *C#, .NET* 2024

- A backend tracking tool using C# and .NET to manage, log, and split shared travel budgets among multiple users.
- Constructed robust data logging mechanisms to ensure accurate financial state tracking and error-free budget management.

Interactive Developer Portfolio | *HTML/CSS, JavaScript, GitHub Pages* 2026

- Designed and deployed a responsive personal portfolio website hosted via GitHub Pages to effectively showcase technical projects and software engineering skills.
- Utilized modern web technologies to engineer an interactive, mobile-accessible layout emphasizing clean UI/UX principles.
